

Argoflex photo . . . 1/200 . . . f:4.5
5X red filter . . . Plus X film

For Kodacolor . . . use Argoflex

A superb camera for black and white, Argoflex is also ideal for COLOR . . . you get nine low-cost oversize (2 $\frac{1}{2}$ " square) color pictures from a 6 exposure roll.

You get what you see . . . right side up . . . on the focusing ground glass. Try Argoflex for Kodacolor (or black and white). See it at your Argus Dealer's.
